

Your

30-MINUTE LIFELINE

to safe evacuation during a fire emergency

AEROX

NEXT LEVEL OF COMFORT & SAFETY

Fire-resistant hood in a bright color — highly visible in smoke

One size fits all: easy to put on even with glasses, long hair or a beard

Anti-fog, distortion - free visibility - wide field of view up to 70%

For adults and children aged 12+

The exhalation valve efficiently removes exhaled air from the inner chamber

The advanced neck seal effectively prevents smoke penetration underneath the hood

The adjustable head harness ensures secure fixation in a comfortable position

High-efficiency filter reduces concentrations of toxic combustion products, hazardous chemicals and suffocating particulates (smoke, dust, mist) by 100-fold
